## **Management's Responsibility for Financial Reporting**

The accompanying unaudited interim condensed consolidated financial statements of **DHX Media Ltd.** (the "Company") are the responsibility of management and have been approved by the Audit Committee of the Board of Directors (the "Board"). The Board is responsible for ensuring that management fulfills its responsibilities for financial reporting, and is ultimately responsible for reviewing and approving the unaudited interim condensed consolidated financial statements. The Board carries out this responsibility through its Audit Committee. The Audit Committee reviews the Company's unaudited interim condensed consolidated financial statements and recommends their approval by the Board.

The Audit Committee is appointed by the Board and all of its members are independent directors. It meets with the Company's management and reviews internal control and financial reporting matters to ensure that management is properly discharging its responsibilities before submitting the unaudited interim condensed consolidated financial statements to the Board for approval.

The unaudited interim condensed consolidated financial statements have been prepared by management in accordance with International Financial Reporting Standards ("IFRS") applied to the preparation of interim financial statements under International Accounting Standards 34, Interim Financial Reporting. When alternative methods of accounting exist, management has chosen those it deems most appropriate in the circumstances. The unaudited interim condensed consolidated financial statements include amounts based on informed judgments and estimates of the expected effects of current events and transactions with appropriate consideration to materiality. In addition, in preparing the unaudited interim condensed consolidated financial statements, management must make determinations as to the relevancy of information to be included, and make estimates and assumptions that affect reported information. Actual results in the future may differ materially from our present assessment of this information because future events and circumstances may not occur as expected.

## Notes to Unaudited Interim Condensed Consolidated Financial Statements For the period ended December 31, 2014

---

(expressed in thousands of Canadian dollars)

### 1 Nature of business

DHX Media Ltd. (the “Company”) is a public company, and the ultimate parent, whose common shares are traded on the Toronto Stock Exchange (TSX), admitted on May 19, 2006 (symbol DHX). The Company, incorporated on February 12, 2004 under the laws of the Province of Nova Scotia, Canada, and continued on April 25, 2006 under the Canada Business Corporation Act, develops, produces and distributes films and television programs for the domestic and international markets, broadcasts films and television programs for the domestic markets, as well, the Company manages copyrights, licensing and brands for third parties. The address of the Company’s head office is 1478 Queen Street, Halifax, Nova Scotia, Canada, B3J 2H7.

### 2 Basis of preparation

The Company prepares its unaudited interim condensed consolidated financial statements (the “financial statements”) in accordance with Canadian generally accepted accounting principles (“GAAP”) as set out in the Chartered Professional Accountants of Canada Handbook – Accounting – Part 1 (“CPA Canada Handbook”), which incorporates International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standards Board (“IASB”).

These financial statements are in compliance with the International Accounting Standards 34, Interim Financial Reporting (“IAS 34”). Accordingly, certain information included in the Company’s annual consolidated financial statements prepared in accordance with IFRS, as issued by IASB, have been omitted or condensed. The preparation of financial statements in accordance with IAS 34 requires the use of certain critical accounting estimates. It also requires management to exercise judgement in applying the Company’s accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements, have been set out in note 3 of the Company’s annual consolidated financial statements for the year ended June 30, 2014. The financial statements should be read in conjunction with the Company’s annual consolidated financial statements for the year ended June 30, 2014.

These financial statements include all adjustments, composed of normal recurring adjustments, considered necessary by management to fairly state the Company’s annual results of operations, financial position and cash flows.

These financial statements have been authorized for issuance by the Board of Directors on February 13, 2015.

### 3 Significant accounting policies, judgments and estimation uncertainty

Except as otherwise indicated hereunder, these financial statements have been prepared using the same policies and methods as the annual consolidated financial statements of the Company for the year ended June 30, 2014. Refer to note 3 of the Company’s annual consolidated financial statements for the year ended June 30, 2014 for more information on new accounting standards and amendments not yet effective.

#### Broadcast licenses

Intangible assets with indefinite useful lives are not amortized. Broadcast licenses are considered to have an indefinite life based on management’s intent and ability to renew the licenses without significant cost and without material modification of the existing terms and conditions of the license. The assessment of indefinite life is reviewed annually to determine whether the indefinite life continues to be supportable. If not, the change in useful life from indefinite to finite is made on a prospective basis.

### **3 Significant accounting policies, judgments and estimation uncertainty** (continued)

#### **Broadcast licenses** (continued)

Broadcast licenses are tested for impairment annually or more frequently if events or circumstances indicate that they may be impaired.

Broadcast licenses by themselves do not generate cash inflows and therefore, when assessing these assets for impairment, the Company looks to the Cash Generated Units ("CGU") to which the asset belongs.

#### **Broadcast rights**

Program and film rights for broadcasting are purchased on a fixed or variable cost basis. The asset and liability for fixed cost purchases are recognized at the time the rights are known and determinable, and if they are available for airing. The cost of fixed program and film rights is expensed over the lesser of the availability period and the maximum period that varies depending upon the type of program, generally ranging from 24 to 60 months. Program and film rights for broadcasting acquired on a variable cost basis are not capitalized and their cost is determined and expensed over their contracted exhibition period, on the basis of the average number of subscribers to the network exhibiting the program and of other contracting terms.

In the event that the recognition criteria for fixed cost purchases described above are not met and the Company has already paid amounts to obtain future rights, such amounts are considered as prepaid program and film rights and are included as prepaids on the balance sheet.

Any impairment charges are reported as operating expenses on the statement of income.

#### **Tangible benefit obligation**

As part of the Canadian Radio-Television and Telecommunications Commission ("CRTC") decision approving the Company's acquisition of 8504601 Canada Inc. ("DHX Television") (note 4), the Company is required to contribute \$17,313 to provide tangible benefits to the Canadian broadcasting system over the next seven years. The tangible benefit obligation has been recorded in the statement of income at the estimated fair value on the date of acquisition, being the sum of the discounted future net cash flows and the same amount has been recorded as a liability as of the date of acquisition of DHX Television. The tangible benefit obligation is subsequently adjusted for the incurrence of related expenditures, the passage of time and for revisions to the timing of the cash flows. Changes in the obligation are recorded as accretion of long-term liabilities in the statement of income.

#### **IFRIC 21, Levies**

In May 2013, the IASB issued IFRIC 21 – Levies, which provides guidance on when to recognize a liability for a levy imposed by a government, both for levies that are accounted for in accordance with IAS 37 – Provisions, Contingent Liabilities and Contingent Assets, and those where the timing and amount of the levy is certain. IFRIC 21 did not have a significant impact on our financial statements.

### 3 Significant accounting policies, judgments and estimation uncertainty (continued)

#### Significant accounting judgments and estimation uncertainty

The preparation of financial statements under IFRS requires the Company to make estimates and assumptions that affect the application of policies and reported amounts. Estimates and judgments are continually evaluated and are based on historical experience and other factors including expectations of future events that are believed to be reasonable. Actual results may differ materially from these estimates. The estimates and assumptions which have a significant risk of causing a material adjustment to the carrying amount of assets and liabilities are as follows (see also note 3 of the Company's annual consolidated financial statements for the year ended June 30, 2014):

#### Business combinations

The purchase price allocation process requires management to use significant estimates and assumptions, including fair value estimates including, but not limited to:

- estimated fair values of tangible assets;
- estimated fair values of intangible assets;
- estimated fair values of deferred revenue;
- probability of required payment under contingent consideration provisions;
- estimated income tax assets and liabilities; and
- estimated fair value of pre-acquisition contingencies.

While management uses its best estimates and assumptions as a part of the purchase price allocation process to accurately value the assets acquired and liabilities assumed at the business combination date, estimates and assumptions are inherently uncertain and subject to refinement. As a result, during the purchase price allocation period, which is generally one year from the business combination date, adjustments are recorded to the assets acquired and liabilities assumed, with the corresponding offset to goodwill.

Although management believes the assumptions and estimates made in the past have been reasonable and appropriate, they are based in part on historical experience and information obtained from the management of the acquired companies and are inherently uncertain. Examples of critical estimates in valuing certain of the assets and liabilities acquired include but are not limited to:

- future expected cash flows from distribution, merchandising and licensing and other customer contracts;
- expected costs to complete film and television productions in-progress and the estimated cash flows from the productions when completed;
- the acquired company's brand, broadcaster relationships and customer and distribution relationships as well as assumptions about the period of time these acquired intangibles will continue to benefit the combined company;
- the fair value of deferred revenue, including future obligations to customers;
- uncertain tax positions assumed in connection with a business combination are initially estimated as of the acquisition date and are re-evaluated quarterly, management continues to collect information in order to determine their estimated value, with any adjustments to preliminary estimates recorded to goodwill during the measurement period; and
- discount rates applied to future expected cash flows.

Changes in any of the assumptions or estimates used in determining the fair value of acquired assets and liabilities could impact the amounts assigned to assets, liabilities and goodwill in the purchase price allocation, which could also impact net income as expenses and impairments could change. Unanticipated events and circumstances may occur which may affect the accuracy or validity of such assumptions, estimates or actual results.

### 4 Acquisitions

- i) On December 23, 2014, the Company acquired all of the outstanding shares of Nerd Corps Entertainment Inc. and its subsidiaries (“Nerd Corps”), which brings more than 200 half hours of proprietary children’s and family content, including the comedy adventure series Slugterra, and Nerd Corps’ creative team. The total consideration will be up to \$58,765 and is comprised of cash of up to \$32,690 and 2,693,748 common shares of the Company valued at \$26,075, being the fair value of the common shares on the date of acquisition. At closing, \$27,690 was paid in cash, funded through an addition to the Company’s Amended and Restated Senior Secured Credit Agreement (note 9), and the common shares issued. The remainder of the consideration is subject to a working capital adjustment of up to \$5,000, based on the opening balance sheet and is payable over a period of 18 months from closing, subject to certain restrictions and adjustments.

The preliminary amount of goodwill of \$22,697 arising from the acquisition is attributable to synergies related to the expanded library, the acquisition of key talent and the strength of combined operations, including additional studio capacity. None of the goodwill is expected to be deductible for tax purposes. The fair value of accounts receivable is \$24,497.

The acquisition was accounted for using the purchase method. As such, the results of operations reflect revenue and expenses of Nerd Corps since December 23, 2014. All structured entities have been identified and are accounted for in accordance with the principles of consolidation disclosed in the notes to the Company’s annual consolidated financial statements for the year ended June 30, 2014.

The purchase price has been allocated, on a preliminary basis to the assets acquired and liabilities assumed based on their estimated fair value as follows:

	\$
<b>Assets</b>	
Cash	8,031
Trade receivables	4,348
Federal and provincial film tax credits receivable	20,149
Prepaid expenses and other assets	117
Investment in film and television programs	14,100
Property and equipment	2,516
Intangible assets (note 7)	26,690
Goodwill	22,697

Capital lease obligations	1,113
Deferred income tax liabilities	9,413
	<hr/>
	39,883
	<hr/>
<b>Net assets acquired</b>	58,765

The Company will finalize the purchase price allocation upon completion of the review of certain working capital balances and determination of the fair value of the tangible and intangible assets acquired. Any future adjustment resulting from this review will be recorded as a measurement period adjustment.

### 4 Acquisitions (continued)

- ii) On November 13, 2014, the Company acquired a library of approximately 1,200 half hours, consisting of predominantly children's and family programming, specifically the outright ownership of 117 titles and distribution rights for an additional 34 titles. The library includes more than 35 television series and more than 35 feature films and television specials in the children's and family programming space, including all international distribution rights to the Company's Degrassi, Instant Star and The L.A. Complex series, from Echo Bridge Entertainment LLC and Alliance Atlantis International Distribution, LLC, a Delaware Limited Liability Company (collectively, "Echo Bridge") for US\$12,000 in cash, which was funded through a US\$12,000 addition to the Company's Amended and Restated Senior Secured Credit Agreement.

The acquisition was accounted for using the purchase method. As such, the results of operations reflect revenue and expenses of Echo Bridge since November 13, 2014. The purchase price has been allocated on a preliminary basis to the assets acquired based on their estimated fair values. The entire purchase price has been allocated to investment in film and television programs.

The Company will finalize the purchase price allocation upon completion of the determination of the fair value of assets acquired. Any future adjustment resulting from this review will be recorded as a measurement period adjustment.

- iii) On July 31, 2014, the Company acquired all of the outstanding shares of 8504601 Canada Inc., a newly formed company, holding substantially all the assets and select liabilities comprising the business of the Family Channel ("Family Channel Business") for cash consideration of \$170,000, funded through an addition to the Company's Amended and Restated Senior Secured Credit Agreement (note 9) subject to customary working capital adjustments estimated at \$2,248, and subsequently renamed the acquired company DHX Television Ltd. The principal assets of the Family Channel Business are the Canadian broadcast licenses for Family Channel, Disney Junior (English), Disney Junior (French) and Disney XD.

The preliminary value of goodwill of \$54,911 arising from the acquisition is attributable to synergies to be realized from the vertical integration of operations.

The acquisition was accounted for using the purchase method. As such, the results of operations reflect revenue and expenses of DHX Television since July 31, 2014.

The purchase price has been allocated, on a preliminary basis to the assets acquired and liabilities assumed based on their estimated fair value as follows:

	\$
<b>Assets</b>	
Cash	6,197
Amounts receivable	11,043
Prepaid expenses and deposits	13,647

The Company will finalize the purchase price allocation upon completion of the review of certain working capital balances and determination of the fair value of the tangible and intangible assets acquired. Any future adjustment resulting from this review will be recorded as a measurement period adjustment.

As disclosed in note 3, as part of the CRTC decision approving the Company's acquisition of the Family Channel Business, the Company is required to contribute \$17,313 to provide tangible benefits to the Canadian broadcasting system over the next seven years. The tangible benefit obligation has been recorded in the statement of income at the estimated fair value on the date of acquisition, being the sum of the discounted future net cash flows and the same amount has been recorded as a liability, which has been initially recorded at \$14,215 as of the date of acquisition of DHX Television. Subsequent to the acquisition, an accretion charge of \$361 has been recorded, increasing the liability to \$14,576. The Company expects to incur annual cash expenditures of approximately \$2,473 in each of the next seven years to satisfy the tangible benefit obligation. The expected expenditures over the next twelve months have been recorded in accounts payable and accrued liabilities.

Concurrently with the acquisition of DHX Television, the Company entered into a new network affiliation agreement with an affiliate of Bell Media Inc. for the carriage of Family Channel Business services, with a term ending December 31, 2018 at market rates.

- iv) On April 3, 2014 ("Epitome Effective Date"), the Company, in an effort to expand its library, acquired all the outstanding shares of the Epitome group of companies ("Epitome"), which includes a library of over 550 half-hour episodes of Degrassi, Instant Star and Liberty Street and 66 one-hour episodes of The L.A. Complex and Riverdale. Total consideration of \$36,229 is comprised of cash \$22,090 and 2,915,263 common shares of the Company valued at \$14,139. The purchase price includes an excess cash adjustment and net working capital adjustment, based on the opening balance sheet figures, of \$8,590, which is included in the cash consideration. During the period, \$7,577 of the excess cash portion of the consideration was paid, with the balance included in accounts payable and accrued liabilities at December 31, 2014.

The preliminary value of goodwill of \$14,518 arising from the acquisition is attributable to synergies that arise from the expanded total library of the Company, the combined operations, the ability to expand into the global teen market and the acquisition of key talent. None of the goodwill is expected to be deductible for tax purposes. The fair value of accounts receivable is \$9,361.

The acquisition was accounted for using the purchase method. As such, the results of operations reflect revenue and expenses of the assets of Epitome from the Epitome Effective Date. All structured entities have been identified and are accounted for in accordance with the principles of consolidation disclosed in the notes to the Company's consolidated financial statements for the year ended June 30, 2014.

As of December 31, 2014, the Company had undrawn bank indebtedness of \$28,300 available.

As of December 31, 2014, the Company had \$20,000 in undrawn interim production financing pursuant to an agreement entered into on August 5, 2014 with CIBC Commercial Banking to provide a \$20,000 demand revolving loan, available by way of an unlimited number of individual loans (the "Segment Loans") made to finance production expenses related to eligible productions (the "Eligible Productions"). The Segment Loans may be drawn down in either Canadian dollars or US dollars and bear interest of \$CDN prime plus 0.75% or \$USD base rate plus 0.75%, respectively. Each Segment Loan is secured by the tangible and intangible assets of each Eligible Production, assignment and direction of production financing contracts and tax credits and a subordinated, unsecured guarantee from DHX Media Ltd.

#### a) Bank indebtedness

Effective July 31, 2014 and commensurate with the closing of the Company's acquisition of DHX Television (note 4), the Company entered into an amended and restated senior secured credit agreement (the "Amended and Restated Senior Secured Credit Agreement") with a syndicate of lenders, which amended the existing terms of the Company's senior secured credit facility. The Amended and Restated Senior Secured Credit Agreement was further amended on October 31, 2014, November 30, 2014 and December 19, 2014 in conjunction with: i) the acquisition of the Echo Bridge assets (note 4); ii) the issuance of the Senior Unsecured Notes (note 9); and iii) the acquisition of Nerd Corps (note 4), respectively.

#### a) Bank indebtedness (continued)

As of December 31, 2014, the Amended and Restated Senior Secured Credit Agreement provides for a revolving facility (the "Amended Revolving Facility") and a term facility (the "Amended Term Facility"). The Amended Revolving Facility is available to a maximum amount of \$30,000, maturing on July 31, 2019. The Amended Revolving Facility may be drawn down by way of either \$CDN bankers acceptances, \$CDN prime, \$USD base rate, \$USD, €EUR and/or £GBP LIBOR advances (the "Drawdown Rate") and bears interest at a floating rate ranging from the Drawdown Rate + 1.25% to + 4.50% of the Amended Revolving Facility outstanding at December 31, 2014, the amount payable in Canadian dollars was CDN\$1,700 (June 30, 2014 – CDN \$nil) and pound sterling was GBP £nil (June 30, 2014 – GBP £2,700).

All amounts borrowed pursuant to the Amended and Restated Senior Secured Credit Agreement are guaranteed by the Company and certain of its subsidiaries (the "Guarantors"). A first priority security interest in respect of all of the capital stock of certain of the subsidiaries of DHX Media Ltd. has been provided in favour of the syndicate of lenders, as well as all present and after acquired real and personal property of the Guarantors.

#### i) Amended Term Facility

The Amended and Restated Senior Secured Credit Agreement entered into on July 31, 2014, commensurate with the closing of the Company's acquisition of DHX Television, provided for an Amended Term Facility with an initial principal amount of up to \$235,000, maturing on July 31, 2019.

Effective November 13, 2014, commensurate with the closing of the Company's acquisition of the Echo Bridge assets, the Amended Term Facility was amended to include an additional principal amount of US\$12,000, maturing on July 31, 2019.

In conjunction with the issuance of the Senior Unsecured Notes, the Company made a principal repayment on the Amended Term Facility of \$151,760 and, accordingly, recognized a debt extinguishment charge of \$3,912, being a portion of the previously unamortized debt issue costs at the time of the principal repayment.

Effective December 23, 2014, commensurate with the closing of the Company's acquisition of Nerd Corps, the Amended Term Facility was amended to include an additional principal amount of \$20,000, maturing on July 31, 2019.

The Amended Term Facility is repayable in annual amortization payments (as a percentage of the principal amount of the Amended Term Facility) of 10% annually, payable in equal quarterly installments, which commenced on December 31, 2014, with the full remaining amount due on maturity, which is July 31, 2019.

##### i) Amended Term Facility (continued)

The Amended Term Facility may be drawn down by way of the Drawdown Rate and bears interest at a floating rate ranging from the Drawdown Rate + 1.25% to + 4.50%. All amounts borrowed pursuant to the Senior Amended and Restated Senior Secured Credit Agreement are guaranteed by the Guarantors. A first priority security interest in respect of all of the capital stock of certain of the subsidiaries of DHX Media Ltd. has been provided in favour of the syndicate of lenders, as well as all present and after acquired real and personal property of the Guarantors of the Amended Term Facility outstanding.

As at December 31, 2014, the amount payable in US dollars was US\$20,918 (June 30, 2014 - US\$42,346), and pound sterling was GBP £nil (June 30, 2014 - GBP £14,383).

The Senior Secured Credit Facilities require that the Company comply with certain financial ratios, including but not limited to:

- Leverage Ratio, defined as funded debt (the total of all obligations for borrowed money which bear interest or imputed interest, excluding interim production financing, all capital lease obligations, and any contingent liabilities ("Funded Debt") to consolidated adjusted EBITDA (rolling consolidated adjusted EBITDA, pro-forma last 12 months) less foreign exchange gains or losses on intercompany debt, production-related EBITDA and certain acquisition costs), which must be maintained at less than 4.25, incrementally declining to less than 2.5 times by June 30, 2017; and
- The Fixed Charge Ratio, defined as consolidated adjusted EBITDA less current income taxes and unfunded capital expenditures to fixed charges (consolidated interest expense and scheduled principal payments on Funded Debt) which must be maintained at greater than 1.5.

As at December 31, 2014, the Company is in compliance with these ratios.

##### (ii) Senior Unsecured Notes

On December 2, 2014, the Company completed a private placement of senior unsecured notes (the "Senior Unsecured Notes") due on December 2, 2021 with an aggregate principal amount of \$175,000. The Senior Unsecured Notes bear interest of 5.875% per annum, payable semi-annually in arrears on June 2 and December 2 of each year until maturity. The first interest payment will be paid on June 2, 2015. The Senior Unsecured Notes are guaranteed by the Company and certain of its subsidiaries and are unsecured obligations.

As at December 31, 2014, the outstanding principal amount due on the Senior Unsecured Notes was \$175,000 (June 30, 2014 – \$nil).

Net proceeds of \$169,760 from the issuance of the Senior Unsecured Notes were used to repay indebtedness under the Company's Amended and Restated Senior Secured Credit Agreement, with \$18,000 being repaid on the Amended Revolving Facility and \$151,760 being repaid on the Amended Term Facility.

The Senior Unsecured Notes contain a redemption option (the "Redemption Option") whereby the Company can redeem all or part of the Senior Unsecured Notes at a premium. The Redemption Option is required to be accounted for as an embedded derivative financial instrument. On initial recognition, the Redemption Option is recorded at its calculated fair value and grouped with the Senior Unsecured Notes. The Redemption Option is adjusted to its fair value at each reporting date and any change in fair value is recorded within finance expense in the consolidated statement of income. On initial recognition, the carrying value of the Senior Unsecured Notes was increased by the amount as the debt premium arising from the Redemption Option, and is amortized over the term of the Senior Unsecured Notes.

The notes contain non-financial covenants and customary events of default clauses. As of December 31, 2014, the Company was in compliance with all of its covenants under the notes.

On November 12, 2014, the PVVS were transferred by the Company's Executive Chairman, to the Company's Chief Executive Officer, in accordance with the terms of a shareholders agreement among the Company and holder of the PVVS (the "PVVS Shareholder Agreement"). On the date of such transfer, the Company's Chief Executive Officer entered into the PVVS Shareholder Agreement with the Company, pursuant to which the Company's Chief Executive Officer (i) agreed not to transfer the PVVS, in whole or in part, except with the prior written approval of the Board, (ii) granted to the Company the unilateral right to compel the transfer of the PVVS, at any time and from time to time, in whole or in part, to a person designated by the Board and (iii) granted to DHX a power of attorney to effect any transfers contemplated by the PVVS Shareholder Agreement. The Board will not approve or compel a transfer without first obtaining the approval of the TSX and the PVVS Shareholder Agreement cannot be amended, waived or terminated unless approved by the TSX.

#### Common shares

On September 30, 2014, the Company's shareholders approved a reorganization of the Company's share capital structure (the "Share Capital Reorganization") to address the Canadian ownership requirements of DHX Television. The Share Capital Reorganization was affected on October 9, 2014 and resulted in, among other things, the creation of three new classes of shares: Common Voting Shares, Variable Voting Shares and Non-Voting Shares.

On October 9, 2014, each outstanding Common Share of the Company that was not owned and controlled by a Canadian for the purposes of the Broadcasting Act (Canada) (the "Broadcasting Act") was converted into one Variable Voting Share and each outstanding Common Share that was owned and controlled by a Canadian for the purposes of the Broadcasting Act was converted into one Common Voting Share. Each Common Voting Share carries one vote per share on all matters. Each Variable Voting Share carries one vote per share unless the number of Variable Voting Shares outstanding exceeds 33 1/3% of the total number of Variable Voting Shares and Common Voting Shares outstanding, in which case the voting rights per share of the Variable Voting Shares are reduced so that the total number of votes associated with the outstanding Variable Voting Shares equals 33 1/3% of the total votes associated with the outstanding Variable Voting Shares and Common Voting Shares combined. The economic rights of each Variable Voting Share, each Common Voting Share, and each Non-Voting Share are the same. All of the unissued Common Shares of the Company were cancelled on the completion of the Share Capital Reorganization. The Variable Voting Shares and Common Voting Shares are listed on the Toronto Stock Exchange under the ticker symbols DHX.A and DHX.B, respectively.

During the six months ended December 31, 2014, 640,000 stock options were exercised at an average price of \$1.31 per share for total proceeds of \$840.

### 11 Government financing and assistance

During the three and six months ended December 31, 2014, investment in film and television programs was reduced by \$300 and \$2,903, respectively (year ended June 30, 2014 - \$1,502) related to production financing from government agencies. This financing is related to participation amounts by government agencies and is repayable from distribution revenue of the specific productions for which the financing was made. In addition, during the three and six months ended December 31, 2014, investment in film has also been reduced by \$944 and \$4,179, respectively (year ended June 30, 2014 - \$4,325) related to non-repayable contributions from the Canadian Television Fund license fee program. During the three and six months ended December 31, 2014, investment in film and television programs has been reduced by \$9,404 and \$13,313 (year ended June 30, 2014 - \$10,832) for tax credits relating to production activities. Lastly, during the three and six months ended December 31, 2014, the Company received \$8,675 and \$15,338 respectively, in government financing and assistance (year ended June 30, 2014 - \$17,241).

Amounts receivable from the Canadian federal government and other government agencies in connection with production financing represents 40% of total amounts receivable at December 31, 2014 (June 30, 2014 - 50%). Certain of these amounts are subject to audit by the government agency. Management believes that the net amounts recorded are fully collectible. The Company adjusts amounts receivable from Canadian federal government and other government agencies including federal and provincial tax credits receivable, in connection with production financing, quarterly and yearly, for any known differences arising from internal or external audit of these balances.

As at December 31, 2014, the Company has losses carried forward of \$1,200 for which no deferred tax asset has been recorded. The Company operates in multiple jurisdictions with differing tax rates, including various provinces within Canada, the United States and the United Kingdom. The Company's effective tax rates are dependent on the jurisdiction to which income relates. In fiscal 2015, the Company's effective tax rate is estimated to be 31% (2014 - 34%) based on jurisdictions in which the income was earned.

### 15 Financial instruments

#### a) Credit risk

Credit risk arises from cash, restricted cash and deposits, as well as credit exposure to customers, including outstanding receivables. The Company manages credit risk on cash and restricted cash by ensuring that the counterparties are banks, governments and government agencies with high credit ratings.

The maximum exposure to credit risk for cash, restricted cash, deposits and trade and other receivables approximate the amount recorded on the unaudited interim consolidated balance sheets.

(expressed in thousands of Canadian dollars)

### 15 Financial instruments (continued)

#### a) Credit risk (continued)

The balance of trade amounts receivable are mainly with Canadian broadcasters and large international distribution companies. Management manages credit risk by regularly reviewing aged accounts receivables and appropriate credit analysis. The Company has booked an allowance for doubtful accounts of approximately 4% against the gross amounts for certain trade amounts receivable and management believes that the net amount of trade amounts receivable is fully collectible. In assessing credit risk, management includes in its assessment the long-term receivables and considers what impact the long-term nature of the receivable has on credit risk. For certain arrangements with licensees, the Company is considered the agent, and only reports the revenue net of the licensor's share. When the Company bills a third party in full where it is an agent for the licensor, the Company records an offsetting amount in accounts payable that is only payable to a licensee when the amount is collected from the third party. This reduces the risk, as the Company is only exposed to the amounts receivable related to the revenue it records.

#### b) Interest rate risk

The Company is exposed to interest rate risk arising from fluctuations in interest rates as its interim production financing, certain long-term debt and a portion of cash bear interest at floating rates. A 1% fluctuation would have an approximate \$750 to \$1,250 effect on net income before income taxes.

#### c) Liquidity risk

The Company manages liquidity by forecasting and monitoring operating cash flows and through the use of finance leases and maintaining revolving credit facilities (note 9). As at December 31, 2014, the Company had cash on hand of \$27,356 (June 30, 2014 - \$26,679).

Results of operations for any period are dependent on the number and timing of film and television programs delivered, which cannot be predicted with certainty. Consequently, the Company's results from operations may fluctuate materially from period-to-period and the results of any one period are not necessarily indicative of results for future periods. Cash flows may also fluctuate and are not necessarily closely correlated with revenue recognition. During the initial broadcast of the rights, the Company is somewhat reliant on the broadcaster's budget and financing cycles and at times the license period gets delayed and commences at a later date than originally projected.

The Company's film and television revenues vary significantly from quarter to quarter driven by contracted deliveries with the primary broadcasters. Although with the Company's recent diversification of its revenue mix, particularly in the strengthening of the distribution revenue stream and addition of the broadcasting revenue stream, some of the quarterly unevenness is improving slightly and becoming more predictable. Distribution revenues are contract and demand driven and can fluctuate significantly from year to year. The Company maintains appropriate cash balances and has access to financing facilities to manage fluctuating cash flows.

### 15 Financial instruments (continued)

#### c) Liquidity risk (continued)

The Company obtains interim production financing (note 9) to provide funds until such time as the federal and provincial film tax credits (note 5) are collected. Upon collection of the film tax credits, the related interim production financing is repaid.

#### d) Currency risk

The Company's activities involve holding foreign currencies and incurring production costs and earning revenues denominated in foreign currencies. These activities result in exposure to fluctuations in foreign currency exchange rates. The Company periodically enters into foreign exchange purchases contracts to manage its foreign exchange risk on USD, GBP and Euro denominated contracts. At December 31, 2014, the Company revalued its financial instruments denominated in a foreign currency at the prevailing exchange rates. A 1% change in the USD, GBP or Euro exchange rate would have less than a \$500 effect on net income and comprehensive income.

#### e) Contractual maturity analysis for financial liabilities

	Total \$	Less than 1 year \$	1 to 3 years \$	4 to 5 years \$	After 5 years \$
Bank indebtedness	1,700	1,700	–	–	–

	<u>466,351</u>	<u>173,944</u>	<u>29,455</u>	<u>83,006</u>	<u>179,946</u>

Payments noted above do not include interest and are not discounted.

#### f) Fair values

The carrying amounts reported on the financial statements for cash, restricted cash, accounts payable and accrued liabilities and current portion of long-term debt and obligations under finance leases all approximate their fair values due to their immediate or short-term maturities or variable interest rates. Interim production financing and bank indebtedness were renegotiated during the year ended June 30, 2014 to reflect current interest rates; therefore, management believes the carrying amounts also approximate their fair values.

The fair value of the Amended Term Facility and obligations under capital leases is set out below and is estimated using discounted cash flow analyses based on discount rates that reflect current market conditions for instruments with similar terms and risks.

Fair value estimates are made at a specific point in time on relevant market information. These are estimates and involve uncertainties and matters of significant judgment and cannot be determined with precision. Change in assumptions and estimates could significantly affect fair values.

### 15 Financial instruments (continued)

#### f) Fair values (continued)

The fair value of the non-current portion of long-term debt and obligations under capital leases is set out below and is estimated using discounted cash flow analyses based on discount rates that reflect current market conditions for instruments with similar terms and risks.

	December 31, 2014		June 30, 2014	
	Carrying value	Fair value	Carrying value	Fair value
	\$	\$	\$	\$
Foreign currency forward contracts	230	230	212	212
Long-term debt and obligations under finance leases	268,974	267,224	61,918	62,772

The Senior Unsecured Notes have two components of value: the conventional notes and the Redemption Option (note 9). The fair value of the Senior Unsecured Notes are based upon the period end trading values. The Redemption Option has been accounted for as an embedded derivative that is required to be bifurcated from the underlying notes, valued using an option pricing model and accounted for as a financial asset, with amount of any debt premium being added to the carrying value of the Senior Unsecured Notes. Any change in the fair value of the Redemption Option is recorded as a component of finance expense in the consolidated statement of income. The Redemption Option is classified as level 2 as defined below.

#### g) Fair value hierarchy

Financial instruments recorded at fair value on the unaudited interim consolidated balance sheet are classified using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The value hierarchy has the following levels:

Level 1 - valuation based on quoted prices observed in active markets for identical assets and liabilities.

Level 2 - valuation techniques based on inputs that are quoted prices of similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; inputs other than quoted prices used in a valuation model that are observable for that instrument, and inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 - valuation techniques with significant unobservable market inputs.

A financial instrument is classified to the lowest of the hierarchy for which a significant input has been considered in measuring fair value.

The long-term investment is classified as level 3 as defined above.

#### Foreign currency contracts

At December 31, 2014, the Company had notional principal of approximately \$3,730 (June 30, 2014 - \$4,610) in contracts to sell US dollars. The carrying value of these contracts is the fair value based on exchange rates at January 1, 2015 and February 17, 2015.

### 16 Commitments and contingencies

#### Commitments

The Company has entered into various operating leases for operating premises and equipment. The future aggregate minimum payments under these operating leases are as follows:

	\$
Year ending June 30, 2015	2,920
2016	5,593
2017	4,078
2018	1,424
beyond 2019	1,401

#### Contingencies

The Company is, from time to time, involved in various claims, legal proceedings and complaints arising in the normal course of business and as such, provisions have been recorded where appropriate. Management does not believe that the final determination of these claims will have a material adverse effect on the financial position or results of operations of the Company. The maximum exposure at December 31, 2014, related to the above matters is estimated at \$400.

### 17 Capital disclosures

The Company's objectives when managing capital are to provide an adequate return to shareholders, safeguard its assets, maintain a competitive cost structure and continue as a going concern in order to pursue the development, production, distribution and licensing of its film and television properties and to sustain the operations of DHX Television. During the six months ended December 31, 2014, the Company declared dividends totalling \$3,122 (six months ended December 31, 2013 - \$2,367). The balance of the Company's cash is being used to maximize ongoing development and growth effort.

The Company's capital is summarized in the table below:

	December 31, 2014 \$	June 30, 2014 \$
Total bank indebtedness, long-term debt and obligations under finance leases	283,566	75,374
Less: Cash	(27,356)	(26,679)
Net debt	256,210	48,695
Total Shareholders' Equity	241,440	223,349
	<u>497,650</u>	<u>272,044</u>

To facilitate the management of its capital structure, the Company prepares annual expenditure operating budgets that are updated as necessary depending on various factors including industry conditions and operating cash flow. The annual and updated budgets are reviewed by the Board of Directors.

The Company is in compliance with all debt covenants of the Amended and Restated Senior Secured Credit Facility and the Senior Unsecured Notes.

### 18 Earnings per common share

#### a) Basic

Basic earnings per share are calculated by dividing the net income (loss) by the weighted average number of common shares in issue during the period.

	Three months ended		Six months ended	
	December 31, 2014	December 31, 2013	December 31, 2014	December 31, 2013

Basic earnings (loss) per share	0.05	0.03	(0.02)	0.05

#### b) Diluted

Diluted earnings per common share is calculated by adjusting the weighted average number of common shares outstanding to assume conversion of all potentially dilutive instruments which are convertible into common shares. The Company has two categories of potentially dilutive instruments which are convertible into common shares: stock options and warrants. For both the stock options and the warrants, a calculation is completed to determine the number of common shares that could have been acquired at fair value (determined as the average market price of the Company's outstanding common shares for the period), based on the monetary value of the subscription rights attached to the stock options and warrants. The number of shares calculated above is compared with the number of shares that would have been issued assuming exercises of the warrants and stock options.

For the three and six months ended December 31, 2014, the weighted average number of potentially dilutive instruments, comprised of shares issuable in respect of warrants and stock options, was 3,187,786 and nil respectively (December 31, 2013 – 4,099,404 and 4,150,449).

For the six months ended December 31, 2014, the diluted weighted average number of common shares outstanding is the same as the basic weighted average number of common shares outstanding, as the Company had a net loss for the period and the exercise of any potentially dilutive instruments would be anti-dilutive.
